**Chris Rowen**  
Tensilica

**Sanjay Srivastava**  
Denali Software

## EDA CONSORTIUM ELECTS OFFICERS AND BOARD MEMBERS

**SAN JOSE**, California, April 2, 2008—The Electronic Design Automation (EDA) Consortium announced today that it has elected a nine-member Board of Directors and officers to serve the organization through spring 2010. Walden Rhines, chairman and CEO of Mentor Graphics Corporation, was elected chairman by the new board. Aart de Geus, chairman and CEO of Synopsys and Kathryn Kranen, president and CEO of Jasper Design Automation, were elected vice-chairmen.

In addition to the officers, the elected EDA Consortium Board members include:

- **John Bourgoin**, president and CEO, MIPS Technologies
- **David Burow**, president and CEO, Agility Design Solutions
- **John Kibarian**, CEO, president and co-founder, PDF Solutions
- **Rajeev Madhavan**, chairman and CEO, Magma Design Automation
- **Chris Rowen**, president and CEO, Tensilica
- **Sanjay Srivastava**, president and CEO, Denali Software

“I am looking forward to working with my new and returning Board colleagues to set the upcoming agenda for the EDA Consortium based on the challenges and opportunities our industry faces in the coming years,” said Walden Rhines. “EDA plays a critical role in the semiconductor value chain, and our customers recognize the importance of EDA to their successful technology development, deployment, and, ultimately, the bottom line.

Collectively, we can advance the industry and make certain we address the challenges faced by our members moving forward.

The new board was elected by the EDA Consortium’s general membership at their biannual election meeting on Wednesday, April 2. The board chairman was re-elected at a special board meeting held following the election meeting. At the same meeting, the Board also reappointed Robert M. Gardner CFO and Treasurer and Mark White, Partner, White & Lee, LLP, Corporate Secretary.

### **About the EDA Consortium**

The EDA Consortium is the international association of companies that provide tools and services that enable engineers to create the world's electronic products. EDA is the critical technology used to design electronics for the communications, computer, space technology, medical and industrial equipment and consumer electronics markets among others.

For more information about the EDA Consortium or to subscribe to the Market Statistics Service, contact EDA Consortium, 111 West Saint John Street, Suite 220, San Jose, Calif. 95113, USA, office 408-287-3322, fax 408-317-3322 or visit [www.edac.org](http://www.edac.org).
