### **Portable Stimulus Provider Breker Verification Systems Becomes Member of the ESD Alliance Member Roster**

*Values ESD Alliance's Technical Initiatives, Networking Events, MSS Reports*

**REDWOOD CITY, CALIF. — February 6, 2018 —** [Breker Verification Systems](#), the leading provider of Portable Stimulus, today became a member of the [Electronic System Design Alliance](#) (ESD Alliance), an international association of companies providing goods and services throughout the semiconductor design ecosystem.

“We place a high value on the industry promotional work of the ESD Alliance, as well as its technical initiatives, networking events and market tracking services” remarks Adnan Hamid, Breker’s chief executive officer (CEO) and co-founder. “As Breker is established as a significant player with an active role in the electronic system design ecosystem, membership in the Alliance is a natural next step.”

Breker introduced a graph-based approach to test case generation that has formed the basis of the Accellera Portable Stimulus initiative, a standard means of specifying verification intent and behaviors reusable across target platforms.

“Breker blazed a path in the verification space with its portable stimulus solution and we welcome such a trailblazer into our ranks,” says Bob Smith, executive director of the ESD Alliance. “We encourage Breker’s executives to get involved with our programs with that same focus and sense of purpose.”

### **About Breker Verification Systems**

[Breker Verification Systems](#) is the leading provider of Portable Stimulus solutions, a standard means to specify verification intent and behaviors reusable across target platforms, and the first company to introduce graph-based verification. Its Portable Stimulus suite of tools is **G**raph-based to make complex scenarios comprehensible, **P**ortable, eliminating test redundancy across process, and **S**hareable to foster communication and reuse giving chip design verification groups true Verification **GPS**. Breker is privately held.

### **About the Electronic System Design Alliance**

The [Electronic System Design \(ESD\) Alliance](#), an international association of companies providing goods and services throughout the semiconductor design ecosystem, is a forum to address technical, marketing, economic and legislative issues affecting the entire industry. It acts as the central voice to communicate and promote the value of the semiconductor design industry as a vital component of the global electronics industry.
