

Each quarter, the ESD Alliance publishes the Market Statistics Service (MSS) report containing detailed revenue data for the EDA, Semiconductor IP, and design services industries. The report compiles data submitted confidentially by both public and private EDA and SIP companies into tables and charts listing the data by both product category and geographic region. This newsletter highlights the results for the third quarter of 2018. Additional details are available in the [press release](#), or by joining ESD Alliance and receiving the full [ESD Alliance MSS report](#).

Overall, third quarter 2018 industry revenues increased 6.7% compared to Q3, 2017. Total revenue for Q3 was \$2435.6 million. Figures 1 and 2, below, summarize the revenue growth for Q3 2018 compared to Q3 2017, detailed by category (figure 1) and geographic region (figure 2). The MSS report contains many additional sub-categories, allowing subscribers to perform a more detailed analysis of revenues affecting their business. A complete list of categories is available [here](#).

Figure 1: Q3 2018 revenue growth by category

Figure 2: Q3 2018 revenue growth by region

Tables 1 and 2 detail the percentage growth for the industry by major category (table 1) and region (table 2).

Category	Revenue (\$Millions)	% Change
CAE	756.6	5.6%
IC Physical Design & Verification	475.8	3.9%
PCB & MCM	200.7	5.9%
SIP	883.5	8.8%
Services	119.1	11.3%

Table 1: Q3 2018 revenue growth by category

Region	Revenue (\$Millions)	% Change
Americas	1059.9	7.4%
EMEA	350.8	5.5%
Japan	242.0	4.1%
APAC	782.9	7.0%
Total	2435.6	6.7%

Table 2: Q3 2018 revenue growth by region

Figure 3 (below) shows the revenue percentages by major category. As the chart shows, CAE is the largest category in Q2, followed by SIP. Geographically, the Americas is the largest consumer of EDA tools, with the remainder divided amongst Europe, Middle East, and Africa (EMEA), Japan, and Asia Pacific (APAC), as shown in Figure 4. The quarterly MSS report includes additional details for the Asia Pacific region.

Figure 3: Q3 2018 revenue percentage by category

Figure 4: Q3 2018 revenue percentage by region

Figure 5 shows the historical revenue for the major categories (CAE, PCB & MCM, IC Physical Design and Verification, SIP and Services) from Q1 1996 through Q3 2018. Each quarter's MSS report contains detailed data for the current year as well as the previous 3 years quarterly data in both tabular and graphical formats.

Figure 5: Revenue history, 1996 – present

Revenue data is reported confidentially to an independent accounting firm, which allows both public and private companies to report revenue data by detailed category. Individual company data is not reported, and steps are taken to further protect individual data for categories with a small number of reporting companies. Contributing data is free, and contributors will receive the quarterly MSS executive summary report. The full report is available to ESD Alliance member companies, and contains substantially more detailed information for industry revenues by category and region, providing the information subscribers need to analyze industry trends.
