

ES Design West Exhibitor List Grows with Ansys, Breker, ClioSoft, Coventor, Methodics, OneSpin, Real Intent, Rescale, Silvaco

Join Inaugural Exhibitors Arm; Cadence Design Systems; CAST; IC Manage; Mentor, a Siemens Business; Synopsys

MILPITAS, CALIF. — April 24, 2019 — The [ES Design West](#) exhibitor list continues to grow with the additions of [Ansys](#), [Breker Verification Systems](#), [ClioSoft](#), [Coventor](#), [Methodics](#), [OneSpin](#), [Real Intent](#), [Rescale](#) and [Silvaco](#).

They join initial exhibitors [Arm](#); [Cadence Design Systems](#); [CAST](#); [IC Manage](#); [Mentor, a Siemens Business](#); and [Synopsys](#) for the inaugural event co-located with [SEMICON West 2019](#) July 9-11 at San Francisco's Moscone Center South Hall.

“CAST has been successful for 25 years by listening to system designers and in turn providing the IP functions and reusability features that they need to be successful,” notes Nikos Zervas, chief operating officer of CAST, Inc. “We decided to participate in ES Design West early on, anticipating great opportunities for contact with many more leading system designers right in their backyard.”

The logo for ES Design West, with "ES" in green and "DESIGN WEST" in black, where "DESIGN" and "WEST" are stacked vertically.

ES Design West, hosted by the ESD Alliance, is the only event in North America that links the electronic system and semiconductor design community with the electronic product manufacturing and supply chain. Presentations will address commercial achievements of the electronic system design community and forward-looking, system-centric design approaches. ES Design West and SEMICON West attendees will learn first-hand how design and manufacturing are drawing closer together.

“For 30 years, the EDA Consortium, now ESD Alliance, has played an important role in our industry by providing a great forum for networking and meeting potential partners and customers,” remarks Jerry Brocklehurst, Methodics’ vice president of marketing. “Their various committees and events have fostered an open dialog and collaborative atmosphere that has helped our industry evolve and grow with the times. We believe the inaugural ES Design West event will continue this tradition and we look forward to participating.”

Program details, registration information and an exhibitor prospectus can be found at the ES Design West [website](#). Follow ES Design West on Twitter: #ESDesignWest

The HOT Party

The Heart of Technology (HOT) fundraising party sponsored by Jim Hogan, Silicon Valley venture capitalist and software executive, and presented by the ESD Alliance, debuts at [ES Design West](#) and [SEMICON West](#) Tuesday, July 9. It will be held at the

John Colins Lounge in San Francisco from 5:30 p.m. until 10 p.m. ES Design West and SEMICON West badge holders will be admitted with a suggested minimum \$20 donation. Other guests can attend for a donation of \$50.

This year's beneficiary is the [SEMI Foundation](#) supporting Science, Technology, Engineering and Mathematics (STEM) education and career awareness in high technology. All proceeds from the event will be contributed to the SEMI Foundation.

About the Electronic System Design Alliance

The [Electronic System Design \(ESD\) Alliance](#), a [SEMI](#) Strategic Association Partner representing members in the electronic system and semiconductor design ecosystem, is a community that addresses technical, marketing, economic and legislative issues affecting the entire industry. It acts as the central voice to communicate and promote the value of the semiconductor design ecosystem as a vital component of the global electronics industry. Visit www.esd-alliance.org to learn more.

About SEMI

SEMI® connects more than 2,100 member companies and 1.3 million professionals worldwide to advance the technology and business of electronics design and manufacturing. SEMI members are responsible for the innovations in materials, design, equipment, software, devices, and services that enable smarter, faster, more powerful, and more affordable electronic products. Electronic System Design Alliance (ESD Alliance), FlexTech, the Fab Owners Alliance (FOA) and the MEMS & Sensors Industry Group (MSIG) are SEMI Strategic Association Partners, defined communities within SEMI focused on specific technologies. Since 1970, SEMI has built connections that have helped its members prosper, create new markets, and address common industry challenges together. SEMI maintains offices in Bangalore, Berlin, Brussels, Grenoble, Hsinchu, Seoul, Shanghai, Silicon Valley (Milpitas, Calif.), Singapore, Tokyo, and Washington, D.C. For more information, visit www.semi.org and follow SEMI on [LinkedIn](#) and [Twitter](#).
